They are mostly of the sort that oright not to be submitted to the people, and would not be if the constitution permitted the legislature to pass themwithout such submission. They are the ones that you know least about, and on which it is easiest to case if the constitution "No" and yet nearly on which it is easiest to cast an impatient "No". And yet nearly all of them are good bills. The ruly objection to them is that they deal with minor and technical matters with which the voters aught not be bothered. But that is nobody's fault but ours, for not simplifying the constitution to permit the legislature to act on them. There is therefore no exuse for

20 College Students Hurt In Campus Bonfire Battle

SANTA ANA, CALIF.,

LOS ANGELES, Oct. 20.—College rivalry turned into a riot on the campus of the University of California, Southern Branch, early today and more than twenty students were in-

jured, one perhaps fatally.

It was the traditional bonfire fight, when University of Southern California students attempted with "gasoline bombs' to destroy the majestic woodpile to be set afire during the rally preceding the Southern Branch's football game with Occidental college.

The invaders arrived in automobiles and hurled "gasoline soaked rags," succeeding in setting the fire but student guards engaged the attackers in combat which brought clubs, sticks and stones into play.

The most seriously hurt were: Roger Vargas, 18, possible spinal fracture; Ralph Hermann, 20, severe cuts on face; L. R. Cummings, cuts on head; Herbert Stalbert, 19, cuts on head.

Friends of Man Defeated In August Realize They Face Uphill Fight

Hurling a bombshell into the po-

This was learned here today when it was announced that a mass meeting of voters of the fifth district would be held at the Tustin grammar school house the evening of Thursday, October 26, for the purpose of furthering organization to re-elect Wassum and to defeat

If the Wassum faction succe it was pointed out, Jeffrey's vic-tory in August will be upset, and the first time in the history the county a write-in candidate will have been elected against a man whose name appeared on the

Wassum and Jeffrey were con testants for the nomination at the primary August 29. Jeffrey re ceived 764 votes; Wassum, 68' Jeffrey's name will appear printed on the ballot. Below it will be a blank space, where any voter who desires to vote for some other than Jeffrey may write the name of his choice. Those backing Was-sum for re-election say that they believe enough voters will writein Wassum's name to elect him.

Fight Launched The fight for the write-in posal was launched today when a committee consisting of S. W. Stanley, V. V. Tubbs, John Dunstan William Belding and Hugh J. Plumb, all of Tustin, issued a state ment outlining reasons why the fight is to be made to retain Was-

sum as supervisor.
It was stated that Wassum himself had nothing to do with fathering the movement. Many citizens of the fifth district, it was declared, were of the opinion that Was sum was really the choice of the district, and that his defeat at the primary was entirely due to fact that Jeffrey and Jeffre friends made a vigorous campaign while comparatively little was done for Wassum, and to the fact that "misrepresentation and propaganda" were spread by Wassum's opponents, and that the situation in the district was not understood by the voters.

Face Uphill Fight Those who are in the movement to re-elect Wassum realize that they have an uphill fight because of the fact that Wassum's name will not appear on the ballot. They believe, however, that with the widespread interest there is in the matter every voter in the district who goes to the polls November 7 will know exactly how to record a vote for or against Wassum

Fresh air is quite as important. Pneumonia, bronchitis and colds are more often due to absence of fresh air than to exposure to it.

Absolute cleanliness in everything that touches the baby's food is imperative. This means more than the ordinary cleanliness of a good house keeper. The utensils used in preparing the food should be in good condition and preferably of enamel or aluminum. They should be boiled for at least 15 min-Values

How Much of Your Money **Burned Up** Last Year?

Last year's fire loss in the United States and Canada was over \$500,000,000. In the past ten years \$1 out of every \$4 spent in new construction has been destroyed by fire.

Each year we burn up enough property to build homes for a city of half a million people - a city as large as Buffalo.

To put it another way, \$500,000,000 would have built over 14,000 miles of concrete roads at \$35,000 a mile, or 5,000 school buildings at \$100,000 each.

Fire loss represents a total loss of natural resources together with loss of time, wages, customers, good will and all the disorganizing effects that follow fire.

In addition fire takes annually an enormous toll of human life.

To drive home the necessity and profit of buildings that won't burn is part of the work of the Portland Cement Association.

Time and time again concrete has proved itself the highest type of fire resistive construction. Concrete buildings command lowest insurance rate. Concrete construction means safety combined with longest life at minimum upkeep. Concrete grows stronger with

The Portland Cement Association is constantly assisting every movement directed toward reducing fire waste through the medium of better building. Our engineers are at all times cooperating with builders, architects and others with a view to reducing fire hazards.

Aiding the work of fire prevention is typical of the daily service of the Portland Cement Association.

Amid a profusion of flowers on the platform in the assembly hall the Rev. Mr. Oliver made his last ad-dress to the congregation.

"Never in my career have I felt the call of the church more strong, nor the strenth and power of my convictions more certain," said the Rev. Mr. Oliver. "When I first came to you I passed through the happiest period of my ministry, in that first month of

service.

"I am leaving you, not in sadness, but in a sure belief that the time I have spent with you has been fruitful and that support which I had from you will be given to Doctor Betts, my successor.
"This is my last sermon in Santa Ana, with the exception of those I may preach upon the invitation of Dr. Betts, and I can only assure you that, although I am going to another field, the remembrance of Santa Ana will be

always with me."

The Suit That Water Can't Harm!

Clothcraft "5130" Serge America's Standard Suit for Men and Young

Then you ever soaked to the skin? Then you know how water can ruin a suit. But here's a suit that a rainstorm can't injure! The famous water-test proved that.

A standard Clothcraft Coat-right from the rack-was thoroughly soaked in water, dried and repressed. And at the end of the test it was as good as new—the water had not harmed it.

Now a coat is made up of many little parts-fabric, hair-cloth, lining, canvas, thread, etc.—and unless these parts are carefully put together, unless the material and workmanship are the best obtainable, the suit cannot survive the water test unharmed.

The fact that Clothcraft Coats will pass this severe test proves the superior quality of materials and workmanship that go into the making of Clotheraft Clothes.

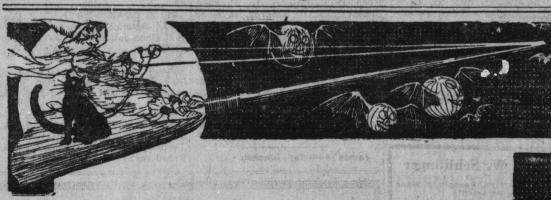

And the fact that you can buy a suit of Clothcraft "5130" Serge for \$27—proves VALUE that is apparent in the entire Clothcraft line.

LOS ANGELES, Oct. 20 .- In a statement emphasizing the extreme importance of the protection given to California's principal agricultural products by the McCumber-Fordney tariff bill, C. C. Teague, president of the California Fruit Growers' exchange and of the California Walnut Growers' association, today declared that United State Senator Hiram Johnson should receive the overwhelming indorsement of his constituents for the valiant and successful fight he has made in behalf of the growers of the state.

Friend W. Richardson, nominee for governor, and all of the other candidates on the Republican state ticket were endorsed by Teague, who said that he regarded them all as good men and favored the

election of the whole ticket. "Mr. Richardson," said T "has discharged faithfully and well all of the public trusts placed in him, and I am satisfied that he wil continue to do so if elected

governor."

Praise for Johnson
represent Teague, who represented the citrus and walnut industries of California at the tariff hearings in Washington, gave full credit to all of the California members of both ouses of Congress for the services they rendered in support of the California schedules, but said hat it was Senator Johnson who had been relied upon principally to handle them before the Senate.

"I was a member," said Teague, of the committee of the citrus industry and also that of the walnut industry which was commissioned to go to Washington and appear efore the ways and means committee of Congress to present briefs showing the needs of our industries for protective tariff, and also to make arrangements with our representatives in Congress for the handling of our case while

it was before Congress.
"Careful investigation part developed the fact that Senator Johnson had very great influence in Washington; that a him on account of personal friend-ship and because they had convictions on policies similar to those of Senator Johnson; and that there was another group that was with him because they did not

want his opposition.

Gets Committee Help

"Besides this, he was our senior senator, and it takes a long service before a senator is in position

to do the most efficient work.
"Hence, we found that Senator Johnson was in an unusually strong position to get for Califor-nia what it was entitled to have. We called upon the Senator and placed our case in his hands. All that he asked was assurance that our cause was a just one, and he then promised to do everything he could for us. Since that time our fight has been his fight. He worked for us incessantly, day and night, interviewing Senators and importuning and insisting that the finance committee give our industries adequate protection. He succeeded in getting the finance com mittee to reverse itself on two oc casions, and I feel absolutely cer-tain that had it not been for the very great influence of Senator Johnson we would have gotten very little consideration in our walnut and citrus tariff."

Do you believe in military train-

That is the question which is calling out not a little comment among the high school students as well as local residents.

"Teach children warfare and they will go to war," said David Starr Jordan, former president of Leland Stanford university. On the other side stands the

United States government, which, through the war department, is seeking to put compulsory military training into all high schools and colleges. The government supplies the officers for the training and the equipment.

Aside from the military arguments are those which point out that obedience, correct carriage and sense of responsibility are achieved through military train-

Most of the new students in the high school are also new to Santa Ana, it was reported. This shows the rate of increase in the city is great, it was pointed out.

The rapidity with which the

high school enrollment is increasing is exceeded by the growth of the school population at the junior high school, where the increase since school opened has been 165, making a total of 663 students.

"The majority of these pupils are newcomers in the city," said Principal H. G. Nelson, in commenting upon the increase.

Riverside and San Bernardino Solons Heartily Back Move

That the board of supervisors of Orange county will be in hearty sympathy with the efforts of San Bernardino and Riverside counties to catch the peak floods of the up per Santa Ana river and hold them by check dams in the "dry" canyons, was made clear here today following a meeting of the Tri-Counties Reforestation committee at which the project was discussed

According to Colonel S. H. Finley, of the Orange county board of supervisors, this county, having appropriated \$2,000 for aiding the other two counties in flood control and water conservation, will be deeply interested in the plan of the tri-counties engineers to carry forward the work. Similar appropriations have been made by Riverside and San Bernardino counties.

Another deep-rooted prejudice concerns the color of horses, A gray has been generally esteemed as a tough and "staying" horse, and a black horse has been suspected of lack of stamina. A roan pected of lack of stamina. A roan borse, either steel roan or straw-borry roan, has always been sized up as a hardy horse. A dun horse was thought to be the last word in feebleness. A cream-colored horse was suspected of inability to go the pace, and a white horse, beside being hard to keep clean, was believed to be of delicate constitution. Bays, browns and sorrels have generally been judged on "points" and conformation independent of the color question.

LOS ANGELES, Oct. 20.- Mrs. Adeline L. Burns, mother of Gloria

Adeline L. Burns, mother of Gloria Swanson, most gorgeous of film actresses, today was again the loser in the contest of her husband's will.

Judge Rives denied a new trial of the case in which the relatives of Mathew P. Burns, Pacific coast shoe dealer, succeeded in breaking the will which left most of the estate to Gloria and her mother.

The court would not consider the claim of the contestants that Gloria had vamped the allegedly feeble-minded shoe man, but divided the estate between the parties on the grounds that Burns was incompetent when he made his will.

SACRAMENTO, Oct. 20.—Friend W. Richardson, Republican candidate for governor, spoke briefly before a crowd of several hundred people here last night.

He reiterated his pledge to cut \$15,000,000 from the budget, and said his plan was the simple one of discharging all department heads who failed to live within their budget allowances.

"I didn't have to make promises to any one," he said, "because they all figured I hadn't a chance. They saw my old auto going, up and down the state, but they didn't get on because they didn't know it was incompetent when he made his will.

Six Times A Day-

AND EIGHT TIMES ON SATURDAY

Six times every day, the fleet of quick delivery trucks leave Blauer's grocery, filled with orders that have been taken over the phone. The wise housewives of Santa Ana have learned that this "charge and deliver" system is a wonderful saver of time, trouble and money.

If you are not using our service, you are cordially invited to open a charge account here and let us demonstrate just how convenient and helpful it is.

We can deliver groceries cheaper than you can. It's our business.

We practically always have exactly what you want, but if we should happen to be out of the goods you want we'll see that you get it QUICKLY.

We challenge you to give us a trial. Next time you want something from "down town" just step to your phone and tell "53" what you want.

It will be at your back door before you expect it, and you'll find everything in first class quality. Our prices are ALWAYS right.

LA HABRA, Oct. 20 .- Tuesday. Nov. 21, is the date on which the electors of the La Habra storm water district will elect three truses to direct and control the work of the district, which was formed through a resolution of the board of supervisors passed at their regular meeting yesterday.

Officers named to conduct the election are J. G. Launer, inspector; W. L. York, judge; C. O. Cook,

The hearing on the petition fo formation of the district was before the board yesterday. Only one protest was entered, this being signed by a single property holder, and it was not deemed sufficient by he board to be of effect.

In accordance with the law it was necessary that the board at once call an election for trustees, and after these are chosen the matter will be entirely out of the hands of the supervisors and the trustees will have entire charge of the

An Essential Industry

There is no substitute for wool; no other material has been found which can take its place as a material for making cloth. It is an absolute essential in the manufacture of men's and women's clothing, blankets, robes, etc.

Because wool is an essential in every-day life, because there is a constant demand for woolen goods, the manufacture of woolen goods is a basically sound, dependable enterprise.

Shrewd investors demand such stability in industrial enterprises whose securities they purchase. They buy securities issued by corporations which deal in essential products, corporations which always have a market for their wares.

The Golden State Woolen Mills, at Long Beach, manufactures these neces-

NO. 27—HOME BUILDING FACILITIES

There is every incentive for the stranger and new-comer to build a nice home in Santa Ana. Everything that enters into the building of a home is made right here in Santa Ana. From the architect to the interior decorator there are men in Santa Ana to know their business and do it right.

With all conditions so favorable, there is no reason why every new-comer should not have a home exactly like he wants it.

And when it comes to the job of plumbing and heating The McFadden Hardware Store can exactly suit the builder. The great variety of good ideas we have to select from makes an opportunity to select with discrimination.

When temptations mind who does wrong is to be wholly exculpated from blame, no matter what the extenuating circumstances and conditions may be, but in many instances justice to the offender should be tempered with mercy. As temptation is not altogether automatous, that is, coming entirely from within, for Jesus was "tempted of the devil." and as the conditions that largely determine its strength are hereditary or acquired in early life, it is an injustice to the evil-doer to make him bear the entire responsibility for yielding to temptation, and thereby committing an offense. Nothing in the end is gained by invariably demanding an eye for an eye. Jesus said to the woman who had yielded to temptation—though, as in similar cases, less sinful than sinned against. You say treatment their lives were saved the birds from flying over his head, that you are without either a tried and they were able to return to but he can keep them from building friend or a true lover? Ah, sir, nests in his hair. Temptation may come as unexpectedly and suddenly as a peal of thunder out of a cloudless sky. Neither is a man responsible for the measure of the temptation's influence or power over him, which may—and usually does—depend largely upon inherited predistreated and desposition, and also to a very great extent upon habits acquired in inflancy and early childhood. We are learning that, in many instances, there should be charity instead of censure, pity and not reproach, when persons have yielded to temptation. Parental influences being aroused, their force was too strong to be resisted. No person of sane mind who does wrong is to be assail, there is for every man, to the conclustory and not reproach, and it is that he is friendless, then it is that he is in most danger. BRAIN TESTERS.

A bootlegger was asked by customer how many cases of hooch he had on hand.
"If," answered the bootlegger, "I had as many more, and then one-half as many more, and seven more than that, I'd have 32 cases." How many many had he?

Yesterday's answer: The first of the required numbers is 8, which, plus 2, equals 10. The second is 12, which, minus 2, equals 10. The third is 5, which, and the second is 12, which which we have the second in the second is 12, which we will be second in the second in is 5, which, multiplied by 2, equals 10. The fourth is 20, which, divided by 2, equals 10. Eight plus 12 plus 5 plus 20 equals 45.

A NEW EUROPEAN WAR?

It is difficult to believe that "Europe is more nearly on the verge of military conflict than it was at any period immediately preceding the World War." Yet this is the verdict of an internation sion just returned to America after a survey of European conditions. Recent events certainly demonstrated that the peo-

ple of Europe, with minor exceptions, do not want to fire? fight. It is also evidenet that in the stae of povery in which the big war has left them, they can afford to fight less than they ever could before. Yet, the lives.

It is also evidenet that in the stae of povery commissioners insist, they may fight in spite of everything, if conditions do not improve. Desperation may drive them to it.

The fundamental problems, the commissioners explain, are German reparation and the American war debt. These are the keys to Europe's economic condition, which is impelling the nations toward a new to society, invoking the past to tyrannize over war. All arrangements made so far have been makeshifts. We can be thankful that we do not have to rise from such depths, and that we can grow without needing such an inspiration.

UNITEDLY SEEK FEDERAL AID

There should be no hesitancy in putting vigor, punch and power into the campaign to secure federal aid for Orange county's harbor at Newport.

Those who have been in close touch with the harbor outlook say that now is the time to prepare to make the fight at Washington. Figures should be secured, plans laid and strategy arranged.

Congressman Phil D. Swing, representing this district, stands steady to co-operate fully in the matter; he will lead.

There never was a time in history when the East so fully realized the importance of the west coast plied. as it does today. Harbor facilities are already crowded. The expansion of the West inevitably will call for additional harbors.

In order that headway may be made in the undertaking that seeks federal recognition of the harbor in this county, a united front is necessary. Every community, exery civic organization and every private citizen should stand ready to put his shoulder to the

There will still be need of the services of the American Relief Administration this winter, for the country as a whole is not yet able to produce all it needs. The functions of government in California have grown to such vast proportion that they must have steady, capable hands to administer them. As the steady, capable hands to administer them. As the state grows, its governmental activities are multiplied. The governor is the general manager of the state's business. He has direct or indirect control over the expenditure of millions upon millions of dollars annually. By wise direction of these expenditures, he may increase the propagative and extensive ditures, he may increase the prosperity and stimulate the growth of the state in untold measure; if he spends the money unwisely, he may cast a blight upon the state from which it may take years

This Winter's Business

IS business going to slow down this winter? Many are wondering After hard times, prosperity seems too good to be true. All of the basic signs point to a continuation of the steady indus-

Adventures of The Twins

A Peculiar Journey By Olive Roberts Barton

Backward flew the magic automobile with Nancy and Nick in it.

It certainly did look now as though they never would reach the Fairy Queen's Palace, and they wondered what the good queen herself would be thinking when they did not return with her car.

But it wasn't their fault. It was Light Fingers who had caused the trouble by dropping a magic pill into the gasoline tank.

Back they went, back and back and back, right toward the cave of Twelve Toes, the Sorcerer.

They whizzed by the field with the Scare Crow in it, and the Scare Crow was so surprised he fell over on his straw face.

They whizzed by the chimney where the Sweep lived, and the Sweep was so surprised he fell over on his straw face.

They whizzed by the field with the Scare Crow was so surprised he fell over on his straw face.

They whizzed by the chimney where the Sweep lived, and the Sweep was so surprised he fell own, too, every one of them.

Then something happened.

The Green Wizard saw them and saved them.

When they were passing the high tree where he lived, he reached down with his toe and turned the car all the way around. It was still going backward, but in the right direction.

They whizzed by the Common the fell own of the chimney top.
